Chris.

Christian Waldhofer

I've been in the industry for over 15 years, working in film production, art education, public information, advertising, and brand design. I know how to bring brands to life with visuals that grab your attention. I blend animation, typography, and visual effects seamlessly to create an amazing experience.

I'm a super proud dad, music nerd, coffee enthusiast and hobby photographer. I like karaoke, am really (I mean reeally) into trains and got once kissed on the cheek by Whitney Houston.

Clients such as Asics, Bitpanda, Samsung, T-Mobile, the United Nations, and many others have honored me with the opportunity to work with them.

Resume
